

Polyvore Home: Living Room Project

- Go to <http://www.polyvore.com/>
- Create an account at polyvore.com using an email address or sign in with your Twitter or Facebook account information.
- Go to CREATE → Home → New (select a plain board template)

Scenario:

You just moved into your first apartment and you get to personally style and decorate it. You plan to start with the living room.

Part I: Designer Room

Create a living room presentation for your apartment (drop and drag) that reflects your personal style and include the following items:

- Sofa
- Chair
- Table
- Art
- Rug
- Lighting
- Décor
- Window (treatment/curtains)

- Prices/store names for each selection—keep on a separate paper or WORD document.
- Save your template as a draft and when finished, "publish" and save your template into your picture file. This will be inserted into a PREZI later.

Part II: Design on a Dime

*If you spent \$4,000 or less, your budget must be cut by 50%. If you spent more than \$4,000, then your new budget will be between \$1,000 and \$2,000 for this part.

Create a living room presentation in WORD for your apartment that reflects your personal style and include the same items, but this time on a budget, using similar, knock-off items. You will have \$_____ to buy the same items:

- Sofa
- Chair
- Table
- Art
- Rug
- Lighting
- Décor
- Window

Some websites to shop at include, but are not limited to:

www.macys.com

www.bon-ton.com

www.biglots.com

www.target.com

www.ikea.com

- Prices/store names for each selection—keep on a separate paper
- Save your WORD presentation as a PDF file so you can upload them into the PREZI.

Part III: PREZI

Pull both presentations together in one PREZI showing the idealistic designer version, including costs and stores and then the realistic, budget version including costs and stores. Share your PREZI with me via email so that I can grade it.

Part IV: Summary Questions

most important or most functional, what would that order be and why?

Rubric: _____

Criteria	Present	Not-Present
Designer Room Picture with all areas included (8)		
Designer Room store/price list (16)		
Budget Room Picture with all areas include (8)		
Budget Room store/price list (16)		
PREZI showing both versions & all criteria & Name in Title (11)		
Summary Responses (25)		
Total Points Possible (100)
