

# Did You KNOW?

You will be assigned two birth defect topics to create a “Did You Know...?” poster. Each poster needs to include:

- Topic Fact & Information
- Statistic Associated with the Topic Fact/Information
- Appropriate Picture (you will need to print this off)
- No Spelling/Grammar Errors

All posters need to fit on 9 x 12 construction paper. All writing needs to be legible and large enough to read from a distance.

## Did You KNOW...

### When you smoke during pregnancy... so does your baby?

Baby inhales a variety of poisons such as nicotine and carbon monoxide which pass through the placenta. These poisons prevent the baby from growing and developing properly.

Studies show that 12-20% of pregnant mothers smoke, putting their baby at risk!

## **Possible Topics**

**Smoking**

**Drinking Alcohol**

**Taking Folic Acid**

**Illegal Drugs**

**Prescription Drugs**

**Zika Virus**
