

Bizarre Mystery Food

I'M CURIOUS ABOUT...

- What the texture, taste and smell is of this food?
- Where this food originates?
- Is this food dangerous OR offensive in any way?

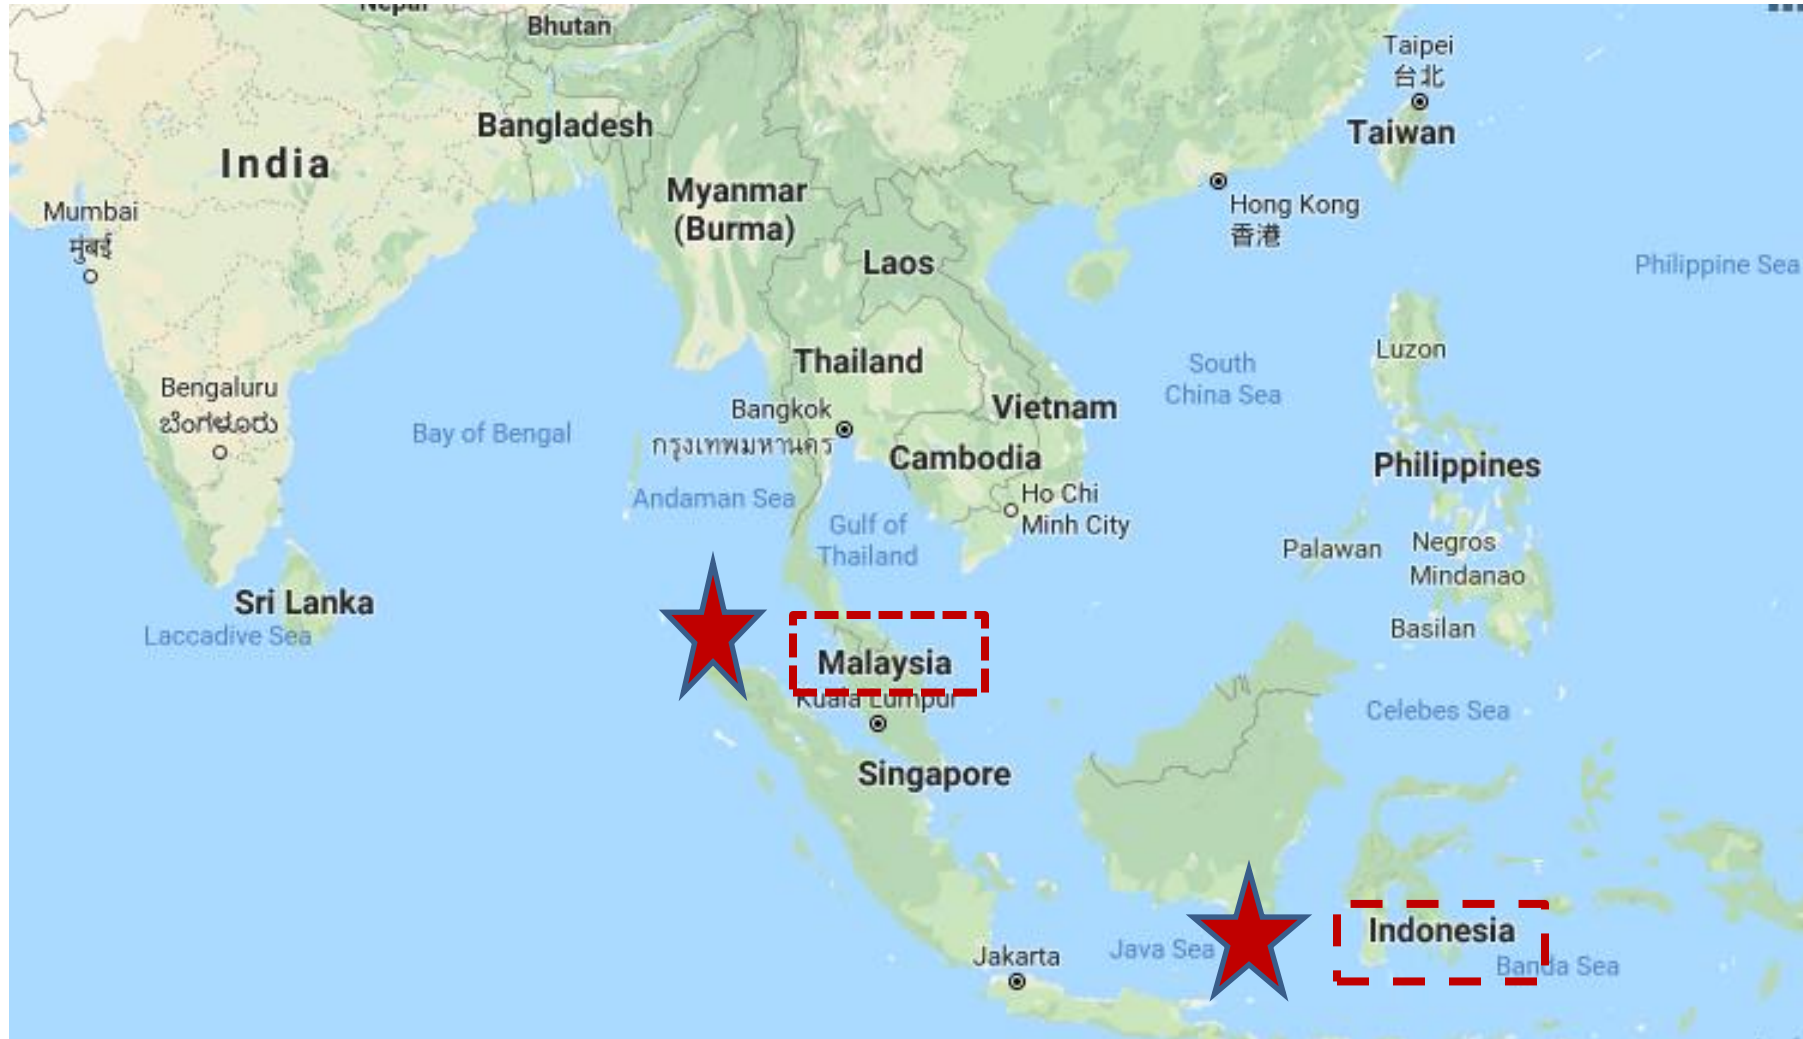

Bizarre Mystery Food

DURIAN FRUIT

This fruit is native to Malaysia & Indonesia. It is a heavy (7 lbs.) football- like thorny fruit that has a sweet, creamy custard-like texture that is “to die for”! If it fell on you, it could kill you upon impact! However, this King of Fruits has one serious drawback and that’s its aroma! The smell as been described as dirty, smelly gym socks, sewage and vomit. In fact, so stinky that it’s banned in many places such as hotel rooms and public transportation! It’s amazing that a fruit can be so wonderful and horrible all at the same time!
