

Children's Craft Project

Spring is in the air and flowers are popping up everywhere! “Fun for Families” craft magazine has contacted you to do a craft layout, writing step-by-step directions, including pictures for their spring/summer edition. The theme for this year is “Do You Wanna Craft a Flower?” The criteria you need to include for the layout are as follows:

- Write age appropriate directions for your flower craft that a preschool or young elementary aged child could understand and create with help or supervision from an adult.
- Include a materials list and a sample of the finished product.
- Include step by step directions and visuals (pictures) of how to construct this craft using the web tool “Snapguide” to assist you. See this sample <https://snapguide.com/guides/make-crayon-art-4/>
- View this tutorial for creating guides before you begin: <https://snapguide.com/guides/create-a-guide-on-the-web/>
