

CUBES & TUBES PROJECT

You or your team will be provided with a variety of string, cardboard objects and basic art supplies that you must develop and create into a creative, well-constructed toy, game or activity for children.

Rules: A variety of containers and objects must be used. In addition, other “open- ended objects, embellishments and art & craft resources may be utilized in the making of this project. You may bring items from home to make your toy, game or activity playable, but please discuss your ideas with your teacher first as we want to keep creativity as authentic as possible.

In addition, you must name your creation, provide a write -up describing how children can play with it and what they might learn or develop by doing so. Note: If working as a team, you must complete the group peer evaluation sheet...see the teacher for this. Be prepared to share your creation with the class, demonstrating its purpose!

Name of Creation _____

Description:

What might a child learn or develop?

Rubric
