

Name \_\_\_\_\_

## Gallery Walk on Fruits and Vegetables

All the fruit and vegetable papers are hung up in the hall. Now you are going to take turns going out and take notes on them. Answer the questions below by viewing the papers. This will be your Summative Grade for this unit instead of a test. If one of the fruits or vegetable papers are missing from the hall then please look up the information yourself on a computer to fill in the rest of the chart.

Food	Picture	Have you eaten this food before?	Originating Location? When it came to US	2 Major Vitamins or Minerals	Where is it grown best?	Serving Size & Calories/ Serving
