

# FAMILY DEFINITION POSTER

Glue a copy of the “Family Definition” onto the center on the construction paper.

Locate at least 10 different pictures, illustrating various parts of the **entire** definition. However, only 3 of the pictures may be actual people; others may be symbolic. Glue the pictures around the definition, using the margins.

Underline the part of the definition the picture is referencing to with a specific color of marker. Also, create a frame around the corresponding picture in the same color. This will be a key so I know what goes together.

On composition paper, explain how the picture relates to the definition. Each picture explanation should be at least 3 sentences minimum.

Groups will orally present their posters, explaining how you illustrated the definition. You may refer to your notes when presenting your poster to the class. Each group member must contribute to the oral presentation beyond holding the poster.

Due \_\_\_\_\_
