

## FAMILY DEFINITION MEDIA ACTIVITY

You will be provided a definition for FAMILIES.

Your objective is to create an interpretive iMovie Trailer illustrating the referenced definition. In order to successfully complete this project, you will need to adhere to the below:

- Select an iMovie Trailer template that contains at least 9-12 text opportunities...more is better!
- Divide the definition into the number of sections, determined by the text opportunities in your trailer template, and include visual representations for each. Meet with the teacher for approval on how you divided up the definition before creating the iMovie.
- The pictures you choose for the visual representations for each section can be literal/concrete or symbolic, but must make sense to the overall meaning of the definition. Pictures can be obtained through Google Images.
- Finally, you will need to interpret and explain the pictures you selected and how they connect to the definition in a Google Doc.
- Share video and written explanations with me via Google Classroom.

Name \_\_\_\_\_

**Rubric**

<b>Criteria</b>	<b>Present</b>	<b>Not Present</b>
<b>Definition divided into 9 or more sections</b>		
<b>Received teacher approval prior to creating the iMovie</b>		
<b>iMovie contained appropriate pictures relating to definition</b>		
<b>Free of Spelling &amp; Grammatical Errors</b>		
<b>Written explanation of picture interpretations and how they connect to the definition</b>
