

INTRO WITH THE PUZZLE FACTORY

Divide students into 3 or 4 groups. Provide each group with 3 different puzzles with the same number of pieces..

Round #1: Regular puzzle with pieces and box with picture

Round #2: Box with picture is provided, but all pieces are spray painted the same color

Round #3: Puzzle pieces are in a baggie, but no box or picture is provided

Optional Round #4: Dilemma–How do you fix the puzzle to make it complete if it was missing pieces? Brainstorm at least 2 possibilities.

PUZZLE FACTORY

You work in the puzzle factory and your job is to complete each puzzle along with the corresponding paperwork. You will need to time yourselves so set a timer on your iPad.

Rotate the paper pusher for each round.

See your supervisor (teacher) for the paperwork and fill it out immediately after the puzzle is completed.

Afterward discuss the results as a class.

EXIT SLIP

This is done as a question on Google Classroom: What do you think the difference is between hard and soft skills? Do not google the answer.
