

Today's assignment will be to research two regional-style pizzas that are made "somewhere" in the United States. Once you have all the research done (one class period so don't waste your time) you will hand in your research to me and we will be selecting six different pizzas to make on Thursday.

This is an **individual project** that you will be working on and graded on for this project. Please do your best on this project because it is worth 25 points and projects weigh more than homework or labs.

**You will be given two regional pizzas to research.**

- You need to report what region of the country these pizzas are served. (states/cities)
- What makes your pizzas unique (what is different about them from traditional pizzas?)  
This will be a two paragraph summary on your pizza
- Secure and print a recipe and picture of your two pizzas.
- Name up to five restaurants where you can obtain your pizza.

### **Neapolitan-style pizza**

#### **New York-Neapolitan (aka "Neapolitan-American")**

1. Region of the country where pizza #1 is served \_\_\_\_\_
2. What makes your pizza unique? **WRITE TWO PARAGRAPHS ON YOUR FIRST PIZZA**
3. Find and print a recipe for your pizza
4. Write down on your report the names of up to five restaurants where you can obtain your pizza and their address.
