

ROLL AN UGLY SWEATER (WITH THE ELEMENTS OF DESIGN)

Roll the die and circle the element of design that corresponds with the number rolled for each round.

Create your ugly sweater using one of the provided templates, incorporating each of the circled elements. Be creative and think outside the box when selecting materials to represent each element. I should be able to clearly see evidence of each element. Good luck...may the ugliest sweater prevail! **It's best to go into this assignment with a plan!
