

SKITCH: Food Label Information--Mandatory or Voluntary

Step 1:

Take a picture of one of the food labels provided for you and save it in your camera roll.

Step 2: Go into the SKITCH App and select the label you photographed. Use your notes to help you find the mandatory and voluntary information. Use the arrows to point to the items on the package, identify what the arrow is referencing and label as mandatory (M) or voluntary (V). Example: If there was a date on your package, you would put arrow at it, then title and label it as Freshness Date--V

Step 3: Once you have labeled all of the information on your product, you will save the photo and submit it via Google Classroom for grading.

Rubric:

Front of Food Label Picture	/5
Annotated with Titles/Arrows Correctly	/10
Correct Mandatory or Voluntary Labels	/10
Total Points:	25
