

VEGETARIANISM: DID YOU KNOW?

Research statistics associated with vegetarianism and positive effects it's had on the world/environment . Create a "Did You Know...?" poster sharing this information. Each poster needs to include:

- Topic Fact & Information
- Statistic Associated with the Topic Fact/Information
- Appropriate Picture (you will need to print this off)
- No Spelling/Grammar Errors
- Cited Sources (Share via Google Classroom)

All posters need to fit on 9 x 12 construction paper. All writing needs to be legible and large enough to read from a distance.

Did You Know...

Eating less meat reduces emissions?

Eating hamburgers made of a blend of 70 percent beef and 30 percent mushrooms would save as many emissions as taking 2.3 million cars off the road in the United States.
