

What Do Children Need?

Silhouette Word Art Project

Instructions

- Generate a list of physical, intellectual, emotional and social needs that parents and caregivers are responsible for providing to their child. Be sure to have several ideas for each category.
- Choose a silhouette and grab some gel pens.
- Create a word cloud within your chosen silhouette, using the list you generated and neatly and creatively write your words and short phrases. These should be “splashed” in a variety of directions, utilizing the space in a visually pleasing manner.
- Cut around the outline of your silhouette and write your name on the back as these will be displayed on the class bulletin board after sharing in class.
