

Name _____ Date _____

What's Cooking?

Use the assigned recipe to complete this assignment.

Name of recipe: _____

How many people does this recipe serve or yield? _____

Write the original ingredients and amounts in the center column. Double the original amounts and write the new amounts in the left-hand column and cut the original amounts in half and write the new amounts in the right-hand column. Be sure to include the ingredient, number and/or fraction and the measurement (tsp, tbsp, c, lbs, oz). See the example provided below. Staple the original recipe to this paper.

Double the Original Amounts ($\times 2$)	Original Ingredients & Amounts	Cut the Original Amounts in Half ($\times \frac{1}{2}$)
4 cups flour	Ex. 2 cups flour	1 cup flour
